

*Many years ago, I made my first drum and shared it with a friend. We started calling it a SlapDrum. I was encouraged to share these instruments by the musicians who played them.*

*The music industry is rewarding and full of wonderful people.*

*I have been making music (noise to some) and SlapDrums ever since.*

*Thanks! - Chris*

slap drum®

The SlapDrum® is trimmed in beautiful walnut hardwood. The walnut trim adds aesthetic value and durability. A quality deep tone that makes us proud.

SlapDrum

The SlapBoxx is perfect for percussionists, drummers, or rhythm enthusiasts who want to stand out from the crowd. Its one-of-a-kind acoustic ergonomic design (patent pending) allows players to achieve the widest variety of sounds available in any single acoustic drum! Unlike traditional Cajon's, the SlapBoxx fits snugly in your lap, while you sit back and enjoy hours of comfortable playing.

SlapCajon

SlapCajon - the "Not so Typical" Cajon:

- 18.5 Inches Tall
- BIG 156 Square Inch Baltic Head
- Dual Resonant Head System
- Tuned Extended Port
- Serious Volume
- Excellent dynamic range
- Solid Acoustic 9ply Birch
- Magnificent Unique Wood Grain

Engineered to for quality sound, its resonant frequency redefines the low note.

SlapBoxx  
19 x 11 inch Head

SlapBoxx

LapDrum

The LapDrum is 13 x 13 x 4in  
It's cool and easy to transport.

Attention Drum Circle Players!

The unique grain of Birch contrasted by walnut trim make a beautiful instrument.
